RENTALS
Clad in hemlock and laced with pendant lights, the Museum's Osberg Great Hall features over 4,200 square feet of acoustically-tuned multipurpose space. Built into the west wall is a 16:9 rear-projection screen with a state-of-the-art sound system. The back of the auditorium is designed with a sliding glass wall running the full length of the eastern elevation, and provides a spectacular vista of the Museum’s 3,000-square-foot Fisherman’s Sun Terrace.
The Museum is designed around a linear Fjord Hall that weaves together stories of homeland and the Nordic American experience. Over 280 feet long, this space offers a unique experience for guests, including a PA system, dramatic lighting, and one of a kind art object installations.
